

SurvivalRing

Study Yesterday.. Prepare Today.. Live Tomorrow

This digital document created and presented by Richard Fleetwood. He is the founder, author, producer, and webmaster of the **SurvivalRing** (<http://www.survivalring.org>) and **Civil Defense Now!** (<http://www.survivalring.org/cd-main.htm>) websites.

SurvivalRing has as its goal the ideal of being the leading source of survival, preparedness, and self reliance information on the Internet. Linkage, assistance, and creation of digital content in areas that until now have only been hinted at or impossible to find, is being added to everyday via the SurvivalRing website and email lists.

Thousands of hours of searching, writing, and communications have been spent collecting over 2 gigabytes of digital content, as well as tens of thousands of pages of hard copy original public domain material in the areas of civil defense, survival, training, and preparedness, from all over the globe.

As much as possible is being put online at his website at
<http://www.survivalring.org>

Civil Defense Now?

Part of The SurvivalRing website

The content of THIS file, while created from PUBLIC DOMAIN material, produced by the U.S. (or other) Government at taxpayer expense, is presented in THIS digital format, produced from the ORIGINAL hardcopy document, for the benefit of all mankind, in hoping to help spread the idea of PREPAREDNESS for any and all threats that may come from either natural, extraterrestrial (space based), or manmade sources.

There are too many situations and incidents that can come to pass in everyday life, that when time is taken to learn and skills obtained, can mean the difference between life and death. Sept. 11, 2001 proved to the world that no matter how safe a person thinks they may be, death and injury can come from the most UN-LIKELY place, at any time. The documents presented in this series of digitized works, can help the average person with the knowledge within, to know how to save those persons closest to them in REAL disaster. Help spread this idea of sharing SURVIVAL INFORMATION.

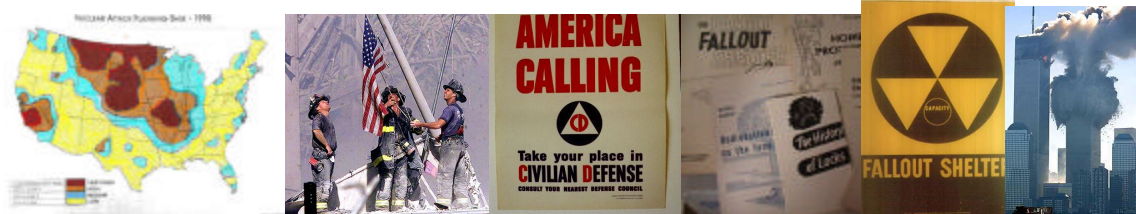

If you have documents from any era, on any disaster or civil defense area, PLEASE contact Richard at his email address of **RAFLEET@AOL.COM**. Check the website for the LATEST additions to the CIVIL DEFENSE NOW online library archive. All data online, and much more, is also available on CD-ROM. Information is available at the website on how to obtain it. Thanks for your support, and enjoy the information contained on the following pages. Share them with those who will learn from them and teach what they know to others.

Donations of U.S. or other civil defense documents, articles, books, videos, digitized ephemera, patches, tools, photos, or anything of this nature is appreciated, as well as cash gifts or donations to support the website costs and bills. Address information is available on the homepage of Civil Defense Now! (URL located above)

INSTRUCTIONS

The information beginning with box 1, in the upper left-hand corner, through box 10 will constitute a completed transcription.

1. Insert names of NAWAS point making the initial report.
2. Person initiating form should assign numbers with a new series daily.
3. Check the box after the type of report being transmitted. Types are listed in order of priority.
4. Insert local date/time of incident.
5. Insert UTM Grid Coordinates, reading right and up. (Use two letters and four digits.)
6. Give name of locality or installation for OTHER and, if known, for NUDET.
7. NUDETS are classified as large (L), medium (M), small (S), or unknown (U). (A bomb under 1 MT is considered small; over 1 MT and thru 5 MT, medium; and over 5 MT, large.)
8. TYPE refers to Air Burst (A), Surface Burst (S), or unknown (U).
9. A brief description of the incident, if OTHER box is checked.
 - SIGHTING REPORT
 - A. Date/time of sighting.
 - B. UTM Coordinates locating person reporting the SIGHTING.
 - C. Give azimuth or direction from person to the explosion, bright flash, and/or center of the mushroom cloud.
 - FALLOUT REPORT
 - A. Date/time of reading.
 - B. Designator of FMS making report
 - OR
 - DOSE RATE
 - C. R/hr reading from meter (not required for fallout).
10. Identify the originator of the "incident" information for NUDET, SIGHTING, or OTHER.
11. & 12. Use date/time of receipt and then transmission upward, of information. Each communicator will complete, but will not transmit this information.
